

STEALTH

POLYMER TORCH

照射特性 ワイドビーム	照射距離 約162 m (最大時)	明るさ 130 Lumens	実用点灯 4 時間
----------------	----------------------	-------------------	--------------

Lighting Technique Wide Beam	Beam Distance 158m (Max)	Light Output 280 Lumens	Runtime 25 Hours
---------------------------------	-----------------------------	----------------------------	---------------------

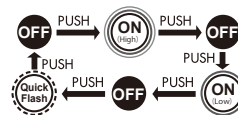

Specifications

Model NO. SP-230

Product	: STEALTH 230
Operation	: High > Low > Quick Flashing > OFF
Function	: Tail Cap Switch Rotation-mode Switch Waterproof (IPX4)
Light output	: 130 Lumens
Run time	: 4h (High), 15h (Low), 9h (Quick Flashing)
LED type & qty	: 1 × Power Chip LED
Lens type	: Reflector Type
Battery Type	: 2 × AA Alkaline Battery
Size	: φ28 × 155mm
Weight	: 94g (with batteries)
Accessories	: Carrying Strap, Original Pouch, 2 × AA Alkaline Battery

Rotation mode switch

Rotation mode switch which allows to change the lighting output mode (High/Low/Quick Flashing)

Super-tough Polymer Body
